

Courtyard

Where a City Meets Its First Symphony.

COURTYARD

Where Life Plays Its Perfect Melody!

Two Legacies. One Shared Belief.

Courtyard brings together the craftsmanship of Vedant and the trust legacy of Suraksha. One brings thoughtful boutique development. The other brings decades of transparency, timely delivery and customer-first values.

Together, they have created a project that balances design excellence with long-term reliability.

Bengaluru's First Guitar-Shaped Courtyard

This iconic landscape feature is the heart of the community and is positioned as the "First to strike a Chord". The central courtyard spans approximately 70,000 sft.

No Common Walls

Absolute Privacy: Courtyard by Vedant Suraksha is promoted as the "First in Complete Privacy". This architectural design ensures zero common walls in all 278 homes.

The Exclusive 'Terracony'

Innovation Marketed as the "First to blend Terrace and Balcony", the Terracony is Vedant Suraksha's signature hybrid space. This larger-than-traditional balcony offers a private outdoor retreat designed for openness and seclusion.

Signature Club Élan

Club Élan is a dedicated, three-level lifestyle hub at Courtyard, designed for wellness, togetherness, and celebration. More than an amenity, it offers a weekend sabbatical, a retreat to unwind, recharge and reconnect as a community.

Vaastu-Perfect Home Orientation

All 278 homes are East & North facing, ensuring cross-ventilation, energy and light flow.

Many Firsts - *One Thoughtful Vision.*

Introducing a suite of breakthrough residential innovations to the market. This development pioneers a truly integrated community experience, centered around a massive architectural centerpiece dedicated to outdoor recreation and themed living.

The entire project offers a new benchmark for thoughtful, design-led development in Bengaluru.

A Landscape that Listens to You.

82% Green, 100% Bliss.

Morning walks become meditation. Children discover wonder in every corner. Evenings settle into conversations under open canopy. This is nature reimagined as your personal sanctuary—designed not to impress, but to restore.

This is not ornamental. It's intentional. The central courtyard, gardens and shaded walkways form a living landscape that calms the mind.

A Courtyard designed for connection.

Designed for togetherness. Built for joy.

This is not just architecture. This is intent—spaces designed for connections that matter, moments that linger and memories that become your family's forever song.

Your Private Terrace. Your Personal Horizon.

Introducing **Terracony** A Signature Innovation.

This exclusive, oversized hybrid space offers you an uncompromising blend of openness and complete seclusion. The Terracony redefines private outdoor living, giving you the perfect retreat for your morning yoga or peaceful evening chai.

More than just a balcony, it is your private stage under the sky, composed precisely for your relaxation, where every sunrise and sunset feels like a weekend.

Every morning begins with light,
air and a quiet moment of balance.

Sustainable features for a Greener Tomorrow.

Every element, from block placement to courtyard orientation, follows the logic of rhythm. East and North facing homes ensure energy, ventilation, and light in perfect measure.

Sustainability at Courtyard is not an add-on. It is built into the way the project breathes.

Curated Materials

Every material used in the construction process is nitpicked by us to ensure they are all locally sourced materials.

Low VOC Paints

Low Volatile Organic Compound (VOC) paints to enhance indoor air quality.

EV Charging

Electric vehicle charging stations to support residents with electric cars.

Native Plant Species

Native plant species in landscaping to promote biodiversity & create a vibrant sanctuary.

Rainwater Collection & Groundwater Recharge

Rainwater harvesting systems to collect and store rainwater for landscaping and non-potable uses.

Low Flow Fixtures

Low-flow faucets, showerheads, and toilets from GROHE/Duravit to minimize water consumption.

Greywater System

Utilize greywater (wastewater from sinks, showers, and washing machines) for irrigation purposes after appropriate treatment.

Specifications
