A wide-angle landscape photograph capturing a serene tropical scene at sunrise. The sun is positioned behind a tall, leafy tree on the right side of the frame, creating a bright lens flare and casting a warm, golden glow across the sky and the landscape. The terrain consists of rolling green hills and valleys. In the foreground, there are lush, dense green plants, including what appear to be banana leaves. The middle ground shows a hillside covered in a variety of tropical trees, with several palm trees standing out against the sky. The background features more distant hills and a clear, light blue sky. The overall atmosphere is peaceful and natural.

VISION

CHAPTER 01

The vision of this sanctuary is to pioneer a new way of living—creating a tranquil, resort-style haven where life and nature engage in perfect harmony. Built upon a foundation of over 88% open spaces, this vision embodies a commitment to a legacy of balance and a vibrant, self-sustaining micro-community, where a profound sense of belonging defines the quality of life.

THE SOUL
WAS FOUND
IN THE SILENCE
OF NATURE,
AWAY FROM
THE NOISE
OF THE CITY.

Founded in 1998 by brothers Mr. Nagabhushan Reddy and Mr. Aswathnarayan Reddy, the NBR Group has established a reputation as a trusted entity in the world of real estate, named after its co-founder.

After building a strong reputation for plotted communities in Bengaluru, the company's vision is now being carried forward by the next generation, with Mr. Aswathnarayan Reddy's son, Dhanush Reddy, leading a strategic evolution to meet modern aspirations.

Passion seldom makes a grand entrance. Instead, it simmers quietly a deep-seated conviction, patiently waiting to emerge. Two decades ago, that quiet spark ignited a promise at the heart of Bengaluru: a belief that a home could be so much more than a mere collection of walls.

Our ambition was never solely about constructing buildings. It was a commitment to cultivate a sense of place—a sanctuary where memories become the very foundation, and a home that truly reflects the soul of every family within it. We pledged to shape a skyline built on unwavering trust, to create spaces defined by absolute transparency, and to amplify every voice that joined us on this journey.

Each individual who believed in our vision helped illuminate our path. Their trust became our guiding principle, influencing every blueprint and design. Every milestone served as a powerful reminder of our purpose. This journey has never been simply about business—it has been a collaborative endeavour, one where we have learned, grown, and built together.

As the skyline has evolved, our community has expanded, and our footprint has grown, our values have remained resolute a steadfast foundation anchoring us to our core purpose.

We invite you to experience a living philosophy—where passion and purpose come together to create sanctuaries in harmony with nature, and every corner of every home resonates with our unwavering values.

NAGABHUSHAN REDDY

Founder & Managing Director

A field of pink cosmos flowers against a bright, hazy sky. The flowers are in various stages of bloom, with some fully open and others as buds. The background is a soft, out-of-focus mix of light blue and white, suggesting a bright, sunny day. The overall mood is serene and natural.

What if your home was more than just a residence? What if it embodied a living philosophy—a place where the vibrant soul of a city harmoniously meets the serene embrace of nature?

Imagine awakening to nature's melodic whispers each morning.

Welcome to NBR Soul of the Seasons: a visionary project where every detail embodies the promise of a new way of living. This exquisite development features just four independent towers, gracefully rising from a lush, landscaped canvas.

Here, each thoughtfully designed 3 BHK home serves as a sanctuary, perfectly complemented by a curated selection of amenities together delivering a lifestyle in perfect harmony with nature.

A LIFE
NURTURED

SOUL OF THE SEASONS

— BY NBR GROUP —

We believe every creation must echo the Earth's very heartbeat. Inspired by GAIA's ancient philosophy—the Earth, a living, breathing organism—we embrace life's profound, interwoven dance. Each endeavor, especially our maiden residential development, The Soul of the Seasons, stands as a sacred tribute to this bond. Here, nature's elements converge to shape not merely homes, but sanctuaries where harmonious living breathes.

THE ARCHITECTS

“ A Medley of the Built and Unbuilt where the lines thin between the Outdoors and Indoors. ”

NITA KEMBHAVI & INDRAJIT KEMBHAVI
Kembhavi Architecture Foundation

Here, the line between architecture and nature is not merely drawn—it is beautifully erased.

The project envisions a seamless dialogue between the built environment and the surrounding landscape, allowing them to flow into one another in perfect harmony rather than merely coexist.

Elegant architectural arcades serve as graceful, columned walkways, guiding visitors through a sprawling urban sanctuary. These pathways culminate in a vibrant, high-end plaza—a dynamic gathering space where the boundaries between indoors and outdoors elegantly dissolve. This is where the energy of community comes alive, and conversations flow as freely as the open air.

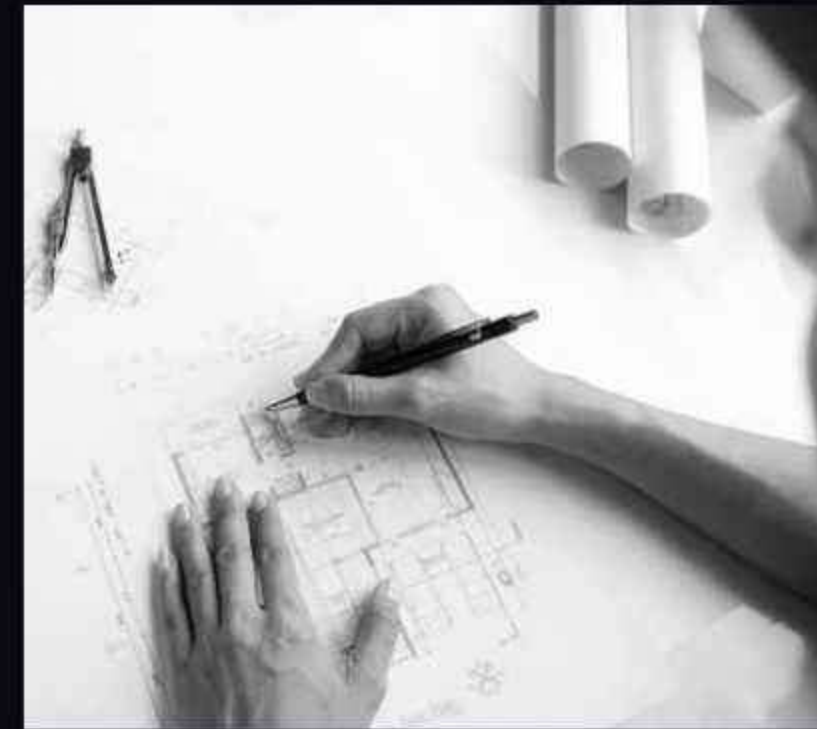

The entire design is a masterclass in synergy, cultivating an ambience open-air luxury and effortless connectivity. Every recreational amenity becomes a natural extension of the landscape, inviting residents to live fully in harmony with the nature that surrounds them.

ARCHITECT SKETCHES AND PLANS

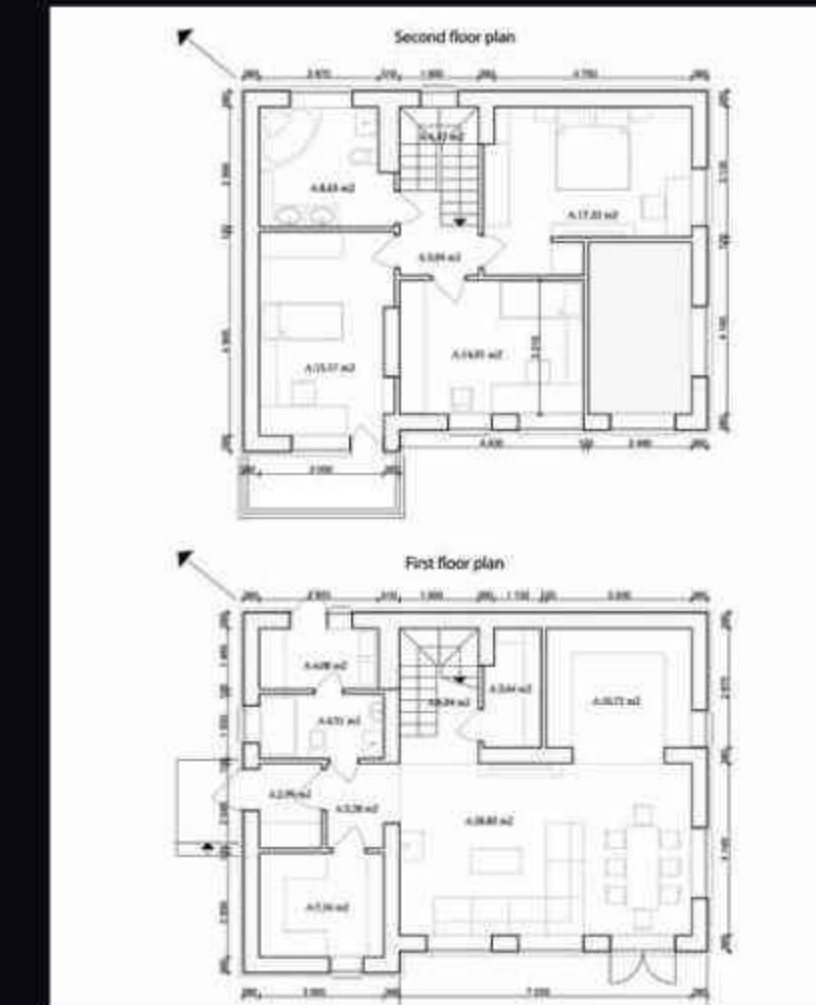

Thoughtfully integrated Triple Height Balconies, Open Planning invites light, air, and greenery into everyday living.

THIS RESIDENTIAL DEVELOPMENT
Soul of seasons creates a seamless connection with nature.

ARCHITECT SKETCHES AND PLANS

The design balances structure and openness—celebrating both the built form and the spaces in between.

THE LANDSCAPER

“ Here, nature is not curated — it is embraced.
Land speaks first, every path, canopy, and
contour talks to you. ”

MADHUP MAZUMDER
Landscape Architect

The entire design language is a symphony, inspired by the elegant lines of the architectural façade. This is not simply a blueprint but a guiding rhythm that shapes the very soul of the project, establishing a tone of grace and harmony from the exterior inward.

From this unifying rhythm emerges a philosophy of seamless integration. We have masterfully woven together the essence of our architecture, the welcoming embrace of residential entrances, and the expansive flow of our open floor plans. This deliberate artistry creates a single, cohesive experience where every element flows naturally into the next.

At the heart of this unity lies nature. Our landscaped structures and walls are designed not to enclose but to celebrate and frame the natural world. Every design decision fosters a continuous dialogue between the built environment and the organic beauty surrounding it—making nature the central, living element of the home.

LANDSCAPE INSPIRATION

From the whispered lines of architectural facades, our inspiration flows. We weave together the grandeur of design, the welcoming embrace of residential entries, the freedom of open floors, and the sculpted forms of landscape structures and walls—each element dancing in harmonious tribute to the natural world around.

LANDSCAPE INSPIRATION

FUTURE LIFE
Indigenously embellishes and grows artistic life taste.

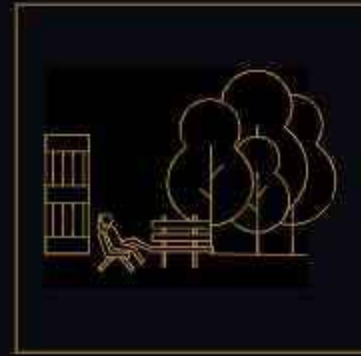

Here, the very soul of this place intertwines with its landscape, a seamless embrace of earth and art. Architectural arcades unfurl, inviting a melting point where boundaries blur, fostering a vibrant synergy. This is where high-end plaza meets recreational delight, a fluid realm where every division fades, and connection truly flourishes.

PHILOSOPHY

CHAPTER 03

More than just a home, NBR Soul of the Seasons is a sanctuary for the soul, born from a philosophy that seamlessly unites contemporary elegance with the serene embrace of nature. It offers an immersive lifestyle and a thoughtfully curated community designed to exist in perfect harmony with the world around us.

The design embodies a living, breathing philosophy, grounded not merely in symbolism but in the timeless essence of the five elements—Earth, Water, Fire, Air, and Ether. This approach creates spaces that are as functional as they are sensory, enriching every aspect of life within.

NATURE IS
NOT A PLACE
TO VISIT.
IT IS
A HOME.

A glass globe sits on a bed of moss and small ferns in a forest. The globe's surface is perfectly clear, reflecting the surrounding forest scene, including tall trees and dappled sunlight. The background is a soft-focus forest with sunlight filtering through the canopy, creating a bokeh effect. The overall mood is serene and natural.

IN THE GENTLE
RHYTHM
OF NATURE
LIES A TIMELESS TRUTH.

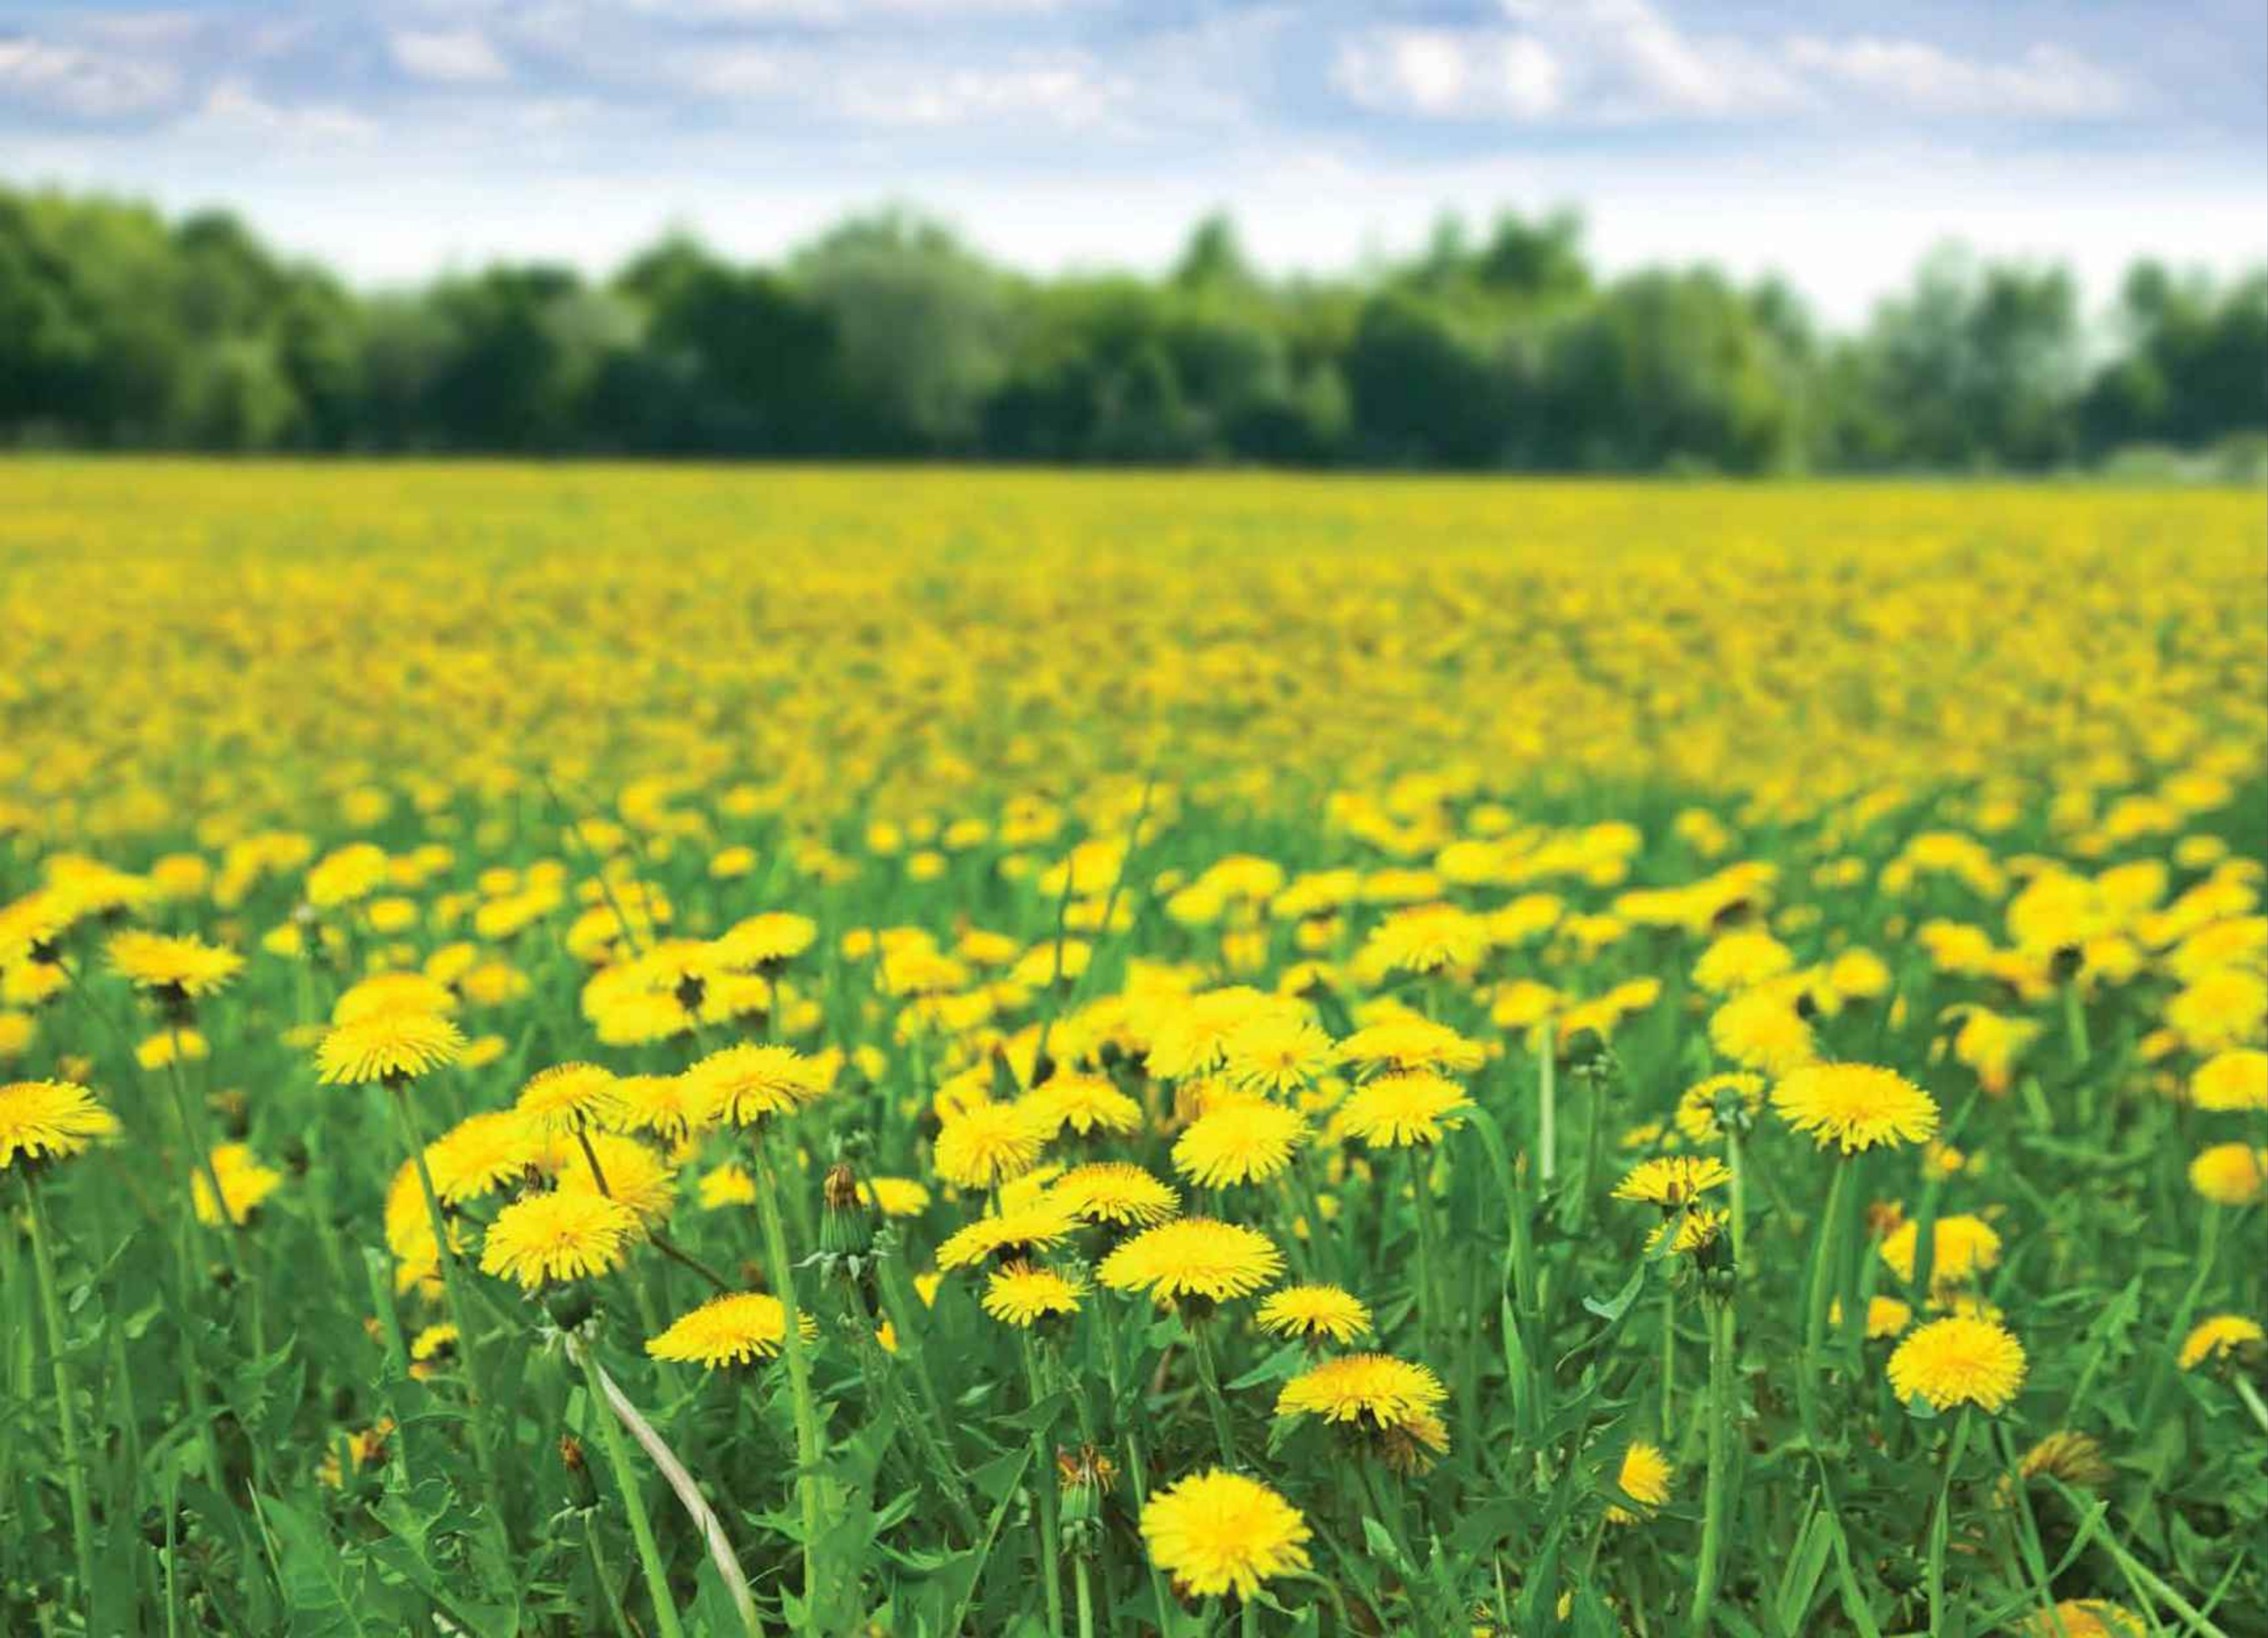

Enter a sanctuary where every season breathes harmony, a gentle symphony led by GAIA's ancient, quiet wisdom.

Here, cradled in the profound truth of Earth as a living, pulsating being, we've tenderly interwoven land, air, and water with human spirit—birthing a haven where balance and beauty don't just exist, but resonate within your very soul.

"Earth may be alive not as the ancients envisioned her, a sentient goddess with purpose and foresight—but alive in the way a tree lives: vibrant, enduring, and deeply connected to the world around it."

NBR's adoption of the GAIA philosophy for developments such as Soul of the Seasons represents a profound commitment to a holistic worldview. This approach transcends conventional landscaping; it is about creating living environments that breathe, evolve, and thrive in perfect harmony with nature.

At its core, the GAIA philosophy envisions Earth as a singular, self-regulating living superorganism—where every component, both living and non-living, is intricately interconnected, working in harmony to sustain life.

In practice, this philosophy guides the integration of the fundamental elements — Earth, Water, Fire, Air, and Ether — not merely as aesthetic motifs, but as essential components shaping the daily living experience. Expansive green spaces, natural water features, thoughtfully designed airflow, and the dynamic interplay of light are all carefully orchestrated to elevate the community's intrinsic life force.

Here, residents don't simply live alongside nature; they reside within a meticulously balanced ecosystem where the air feels purer, the environment embodies peaceful tranquility, and every season reveals its unique, graceful expression.

AN ENVIRONMENT SHAPED FOR BETTER LIVING

At NBR Soul of the Seasons, the landscape is the heart of the community. Spread across expansive green areas, the outdoors is designed to bring clarity, comfort and everyday ease.

Thoughtfully planned pathways, tree-lined avenues, garden pockets and water features create spaces for calm, movement and leisure.

From active zones like sports courts and play areas to quiet corners for unwinding, every part of the landscape is designed to support a balanced lifestyle.

Whether it's a morning walk, time spent outdoors with family, or simply enjoying the open surroundings, the landscape at Soul of the Seasons is made to enhance daily living in a natural, open and refreshing environment.
